Community Gardens Update

The Fraser Community Garden Committee has begun it's work! We are busy connecting to the City and community resources and beginning discussions as to what the Fraser Community would like to have in their garden and how can we implement that.

We would love your input! In fact, the only thing we would love more than your input is your participation! Committee members meet once a month to discuss the design and running of the garden. If you have interest in being on the committee get in touch! If you are "good with your hands" or would be interested in helping out when we have our build days; get in touch! If you have interest in renting out a plot for personal use OR helping take care of the community garden beds, get in touch! In fact, if you can think of any way that you could make this project better get in touch!

In an effort to get an idea of what community members would like to see in their garden, we have a created survey that we would love for you to fill out.

Visit our website for the Survey link!

It is a small 8 question survey that will be invaluable in helping us work on this project. All your feedback is very valued!

Thank you from your hard working Community Garden Coordinator:
